EXAMINER'S REASON FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The rejection of claims 14, 15, 17, 20-22, 39, 40, 42, 45, 47, and 48 under 35 USC § 101 as being directed to nonstatutory subject matter is withdrawn because of amendments made to the instant claims and the current Interim Guidelines set forth the Patent and Trademark Office with regard to computer related subject matter and statutory categories of invention. As amended, the instant claims are definitively coupled to a suitably programmed computer that allows for the performance of functionally described process steps of establishing a genotypic structure, determining a correlation value, repeating said establishing and determining steps, identifying one or more genotypic data structures, and communicating said one or more genotypic data structures to a user. As such, the instant claims, in view of the current interim guidelines, recite a definitive tie to a suitably programmed computer and thus meet one of the two standards set forth in *In re Bilski* for patent eligible subject matter. Specifically, the instant claims as amended now have a tie to a particular machine or apparatus and thus are directed to statutory subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
